

## Seletar Aerospace Park to offer Indoor Testbeds for Commercial Applications of UAS

JTC and AAIS are launching a new joint initiative this year to provide indoor testbeds within Seletar Aerospace Park (SAP) for commercial applications of Unmanned Aircraft Systems (UAS). These readily available indoor spaces are housed within JTC's high rise developments at SAP, and will provide a safe and controlled environment for companies to conduct development trials and customer demonstrations. We welcome UAS-related businesses to register your interest in the testbed and to provide inputs on operating requirements.
