

## AAIS Year-End HOST Networking

AAIS warmly welcomed its members, the Singapore UAS community and partners to its Year-End HOST Networking evening on Wednesday, 27 November 2019. Held at the Grand Mercure Roxy, the event brought out the festive spirit with special treats such as a Whiskey Tasting table, Cold-Pressed Juice corner and a live performance by Mr Steven Crummack from Airbus Singapore. We thank all guests for joining us! View more photos and [read more here](#).

## Introduction to Solar Energy & Contracting + Learning Journey to REC automated factory

Together with knowledge partners from REC, AAIS co-organised an "Introduction to Solar Energy & Contracting" seminar on 6 December 2019. The seminar provided an overview of solar use cases in Singapore, focusing on commercial and industrial applications and enlightened participants on the various business models for contracting solar power. Participants also visited REC's automated solar panel assembly line and gained a better understanding of solar technology. [Read more](#)

## [Visit by Tohoku Aerospace Industry Forum](#)

AAIS hosted delegates from the Tohoku Aerospace Industry Forum (TAIF) from 20-22 November 2019, for their study mission to Singapore. Representing 30% of the country's land area, the Tohoku region contributes to 6.35% of Japan's GDP. We thank members who graciously extended their hospitality to the visitors to explore mutual business interests. [Read more](#)

## Upcoming Industry Activities

### [Aerospace Community Day: CNY Lunch for Elderly](#)

Date(s): 14 January 2020

AAIS welcomes you to take part in our collective efforts to give back to the community. In conjunction with the Lunar New Year, 100 senior citizens from four elderly homes will be treated to a sumptuous lunch at the Grand Mercure Roxy. Your contributions and participation will go a long way to bring smiles to the faces of the elderly.

### **AS 9100:2016 Internal Auditor Course**

Date(s): 16 & 17 January 2020

The industry has moved towards requiring subcontractors and suppliers to be AS 9100 compliant and/or certified. By becoming registered to AS 9100 or by conforming to the standard, suppliers can gain a competitive advantage and benefit from improved processes. Learn the same auditing methods and processes that certification body auditors use (AS 9101 Rev D - QMS Audit Requirements for Aviation, Space and Defense Organisations) to ensure preparation of certification audits.

### **LEAN Launchpad Educators' Workshop by NUS Enterprise**

Date(s): 17 January 2020

Lean LaunchPad Singapore was launched in June 2013 to help scientists and engineers turn inventive technologies into commercially viable products and feasible businesses. The programme promotes experiential learning through the search and discovery process and cultivates entrepreneurial thinking. This 1-day workshop will familiarise new potential mentors with the pedagogy and content of the programme. Interested mentors may then sign up to take up mentoring a project team in the upcoming runs.
