

Yesterday (17 August), DPM, Coordinating Minister for Economic Policies and Minister for Finance, Mr Heng Swee Keat, delivered a Ministerial Statement announcing continued support for businesses, workers and jobs. See highlights from the announcement below, and updates on our upcoming activities. Register for Webinars via our new digital platform!

Enhanced Government Support

- **Jobs Support Scheme**

DPM announced that the JSS, which currently covers the wages of local workers up to August 2020 will be extended. Aerospace companies will be supported at 50% wage levels for seven more months (up to March 2021). This will be paid out by March and June 2021. Businesses are encouraged to use this additional support to retain and upskill workers, and to transform your operations for the post-COVID-19 world. For details and to check your eligibility, please visit the [IRAS JSS page](#) and the [JSS Eligibility Checker](#). Appeals may be submitted via <https://go.gov.sg/jssaerospace>.

- **Preserving Core Capabilities**

DPM highlighted that three sectors in particular – aerospace, aviation, and tourism – have been hit the hardest. The Government will work with companies to retain core capabilities and position them for an eventual recovery. Details will be released separately.

Future of Aerospace Survey

AAIS is conducting a joint study with the Economic Development Board (EDB) and Enterprise Singapore (ESG) to better understand the business outlook, opportunities and challenges for our aerospace companies. Findings from this study will guide our efforts to support our companies through this challenging period, and better prepare our aerospace industry for the eventual recovery and upturn.

Aerospace is an important industry for Singapore, and we look forward to your active participation in the study to help shape the future of Singapore's aerospace industry with us. Please be assured that the information provided will be kept confidential within AAIS, EDB and ESG, and that findings will only be shared on an aggregated basis.
