

AAIS Updates: 22 September 2022

Highlights

Business Meetings with Japanese Companies

AAIS is pleased to invite members to participate in the "Virtual CEO Business Meeting for Innovative Industry" organised by SME Support Japan (SMRJ). To be held from 6 to 17 February 2023, the programme involves online business matching meetings with Japanese SMEs in aviation and aerospace, manufacturing and processing technologies and equipment, AI, IoT, robotics & automation, and other advanced technologies.

Find out more about the programme and objectives in the Information brochure. **To take part in the B2B meetings, kindly download and complete the application form and send it to the AAIS Secretariat via email to liza@aaais.org.sg, by Monday, 26 September 2022.**

The early closing date is required by the organiser, in order for its screening and selection process. In particular, SMRJ will be prioritising the following Singapore-based companies:

- **Companies seeking distributorship agreements or procuring Japanese parts/products**
- **Companies with advanced technology and/or those that are interested in joint development and/or technological collaboration with Japanese companies**
- **Companies keen to seek out Joint Ventures with Japanese companies.**

Selected Singapore companies will subsequently be invited to choose the Japanese companies they wish to meet through its "J-GoodTech" B2B platform in November. Should you have further queries or clarifications, please reach out to us via liza@aaais.org.sg.

Aerospace Partners Golf Tournament (APGT) 2022

Held on 9 September 2022, the APTG, co-organised by AAIS, was back in full swing with the over 80 participants from the industry. With the easing of restrictions, bright smiles and interactions between participants were a welcome sight at the Tanah Merah Country Club Garden Course. Golfers enjoyed great games in cool weather with roving buggies keeping up a supply of drinks and snacks for participants in between strokes.

The networking dinner programme included a wine tasting session, live performances, and a charity art auction. The night was capped off with prize presentations and an exciting Raffle draw full of attractive prizes. On behalf of the APTG Organising Committee, we thank

all participants, sponsors, donors and volunteers for your generosity. All net proceeds from the event will be donated to Cerebral Palsy Alliance Singapore (CPAS).

Recent Activities

The EASA Artificial Intelligence Roadmap: Towards AI Trustworthiness

In this in-person seminar jointly organised by AAIS and the EASA office in Singapore, Guillaume Soudain, EASA AI Programme Manager and Francois Triboulet, ATM/ANS Expert at EASA, outlined the main elements of the EASA AI roadmap. Their presentation elucidated the key points of EASA's 'first usable guidance for Level 1 machine learning applications' published in April 2021 and outlined a number of remaining challenges with respect to AI trustworthiness. The speakers also took questions from the audience relating to the development of the AI standards for aviation, AI-based system interaction with humans, machine learning assurances and others. Held on 19 September 2022 at the AAIS premises in Seletar, the seminar drew interest from a spectrum of aviation and aerospace professionals. We thank EASA, the speakers and all participants for an engaging session.

ASEAN Air Transport Working Group Sustainability Forum

AAIS members were pleased to have been invited to participate in a Sustainability Forum held in association with the 46th ASEAN Air Transport Working Group meetings. The forum, which took place on 14 September 2022 at the Grand Copthorne Waterfront Singapore saw AAIS members participating as industry observers in-person and online. With increasing efforts and attention on the mitigation of climate change, the forum focused on airport sustainability and sustainable aviation fuel (SAF). Speakers from the region, which included representatives from Hong Kong International Airport, Iloilo Airport and Changi Airport, shared best practices in the implementation of sustainability practices by airports. The Roundtable on Sustainable Biomaterials (RSB) also shared findings of its recent study on challenges and market outlook for Sustainable Aviation Fuel for aviation. We thank CAAS for providing the opportunity for industry members to participate in this important regional forum.

Visit of Timor-Leste Vice-Minister to SAP

AAIS was pleased to welcome a delegation from Timor-Leste at Seletar Aerospace Park on 1 September 2022. The delegation, led by His Excellency Domingos Lopes Antunes, Vice-Minister of Trade and Industry of Timor-Leste, was accompanied by other senior officials from the Timor-Leste External Trade, and the TL Customs divisions. During their visit, the delegation was briefed on Seletar Aerospace Park and developments in the Singapore aviation and aerospace industries. The delegation also shared the prospects of developing an aviation industry to support tourism in Timor-Leste. AAIS was pleased to facilitate the visit and looks forward to more such exchanges.

Upcoming Industry Activities

Save-the-Date AAIS ANNUAL GENERAL MEETING

27 October 2022
9.30am – 12.30pm

The 20th AAIS Annual General Meeting is scheduled to be held in person on Thursday, 27 October 2022 from 9.30am to 12.30pm (lunch included) at Intercontinental Singapore. Invitations will be disseminated to main representatives of AAIS members next week. Please look out for the details on registration/proxy nomination and save the date in the meantime!

MRO Europe 2022 (Exhibition & Business Mission)

Oct 18 - 20, 2022
(GMT+1)

Excel London
England, United Kingdom

AAIS is leading and organising the participation of a delegation of Singapore companies to MRO Europe 2022, which will be held from 18 to 20 October in London, UK. Combining a senior-level conference (October 18-20) and an international tradeshow (October 19-20), MRO Europe is a crucial meeting place to connect and pursue opportunities in the commercial aviation aftermarket.

Tap into a recovering air travel market by exhibiting in a hosted Singapore Pavilion, with the support of a grant from Enterprise Singapore. To register your interest to participate and for further information, please drop an email to Margaret Chong at margaret@ais.org.sg or contact +65 9736 1722.

Partners' Events

Industrial Transformation Asia- Pacific (ITAP) 2022

Oct 18 - 20, 2022
(GMT+8)

Singapore EXPO Conv...
Singapore

With companies understanding the importance of Industry 4.0 (I4.0) in enabling effective and efficient work processes, several key considerations have emerged as the industry eco-system continues to evolve post-COVID, while staying prepared for disruptions in global supply chains brought about by world events.

Themed 'Industry 4.0 for Business Sustainability', the 5th edition of the Industrial Transformation ASIA-PACIFIC - a HANNOVER MESSE event (ITAP) happening on 18-20 October 2022 will deep dive into trends and developments in three key dimensions i.e. Digitalisation, Talent & Workforce Development, and Environmental Sustainability, which influences the magnitude of sustainable business development for advanced manufacturing and its related sectors locally, regionally and globally.

Experience transformative solutions and I4.0 showcases that addresses different needs, levels of understanding and adoption readiness. Partake in discussions on additive manufacturing, standards, industrial transformation and sustainability. Register for a Trade Visitor Pass for entry to the physical exhibition at Singapore EXPO and digital access to ITAP Connected platform.

SPECIAL PROCESSES TRAINING PROGRAMME

A collaboration between AAIS and ASTA Training International
to identify and nurture the next generation of
Technicians/Engineers for Special Processes

We are pleased to announce the next upcoming course under the ambit of the AAIS-ASTA Special Process Training Programme for the aerospace industry: **Shot Peening Applications for Aerospace Qualification from 10 to 12 October 2022.**

This is a comprehensive shot peening knowledge and application training programme designed especially for the aerospace manufacturing industry. The course covers all fundamental aspects of understanding and utilisation of the shot peening process in accordance with industry standards and requirements. It provides guidance and important information of how this special process technique could be properly and effectively carried out. The course will also equip attendees with proficiency and competency in meeting Nadcap Accreditation training requirements.

EASA Part 145 Maintenance Organisation Approvals

Date: 15 to 18 November 2022

(4 half working days)

Type: Virtual Instructor-Led Training

This course provides an understanding of the EASA Part 145 and CAA Malaysian Part 145 organisation approval, together with the associated Acceptable Means of Compliance and the Guidance Material. It will enable participants to help their organisations demonstrate and maintain

Drone Security Training Course Bundle

(Learners may take 2 to 6 weeks to complete all 3 courses)

Type: On-demand learning

This course address important issues of governance, regulation, and security that government, investors, and organisations need to be aware of in using drones. Suitable for professionals and individuals

compliance to both EASA Part 145 and CAA Malaysia Part 145.

Aerospace Singapore Feature: Propelling Women in Aviation

The aviation industry is pushing the boundaries of innovation and advancement but where it is still lagging behind many others is in terms of gender diversity. Global statistics on gender equality within aviation remain scarce but it is generally well-observed and acknowledged to be male-dominated. With the exception of airline crews and frontline airport staff, a woman would very likely find herself as a minority in other parts of the industry.

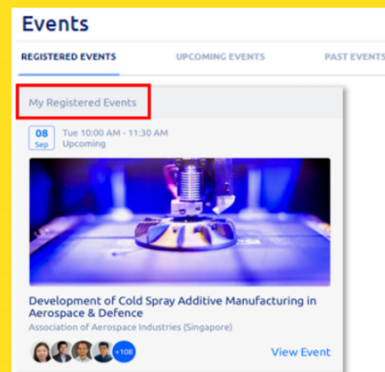

What is the state of women in aviation and what is it like to be a woman in a male-dominated industry? Is there cause to motivate more women to join the industry and what efforts are being made to propel the women in aviation? *Aerospace Singapore* explores.
