

AAIS Updates: 5 October 2022

Highlights

Industry Preview of Aerospace ITM 2025 by EDB (10 October 2022)

AAIS members are invited to a preview of the refreshed Aerospace Industry Transformation Map by EDB on **10 October (Monday) from 2pm to 4pm**. The refreshed Aerospace ITM outlines the strategies and initiatives that the Singapore government will pursue to support the recovery of the industry from the pandemic and position it for growth.

Agenda

2:00 PM - 2:30 PM Registration

2:30 PM - 2:35 PM Welcome by AAIS

2:35 PM - 2:40 PM Opening Remarks by Glory Wee (EDB)

2:40 PM - 3:10 PM Briefing on Aerospace ITM 2025 by Abiel Neo (EDB)

3:10 PM - 3:40 PM Panel Discussion (Glory Wee, Abiel Neo & Industry Representatives)

3:40 PM - 4:00 PM Tea and Coffee

To attend, please register ASAP or before Friday, 7 October, 5pm.

We seek your understanding that due to limited capacity, complimentary seats for AAIS members will be capped to 2 pax per company in the first instance.

Take Part in the AAIS Industry Safety Week (14 to 18 November 2022)

OUR COMMITMENT TO SAFETY

AAIS INDUSTRY SAFETY WEEK

14 TO 18 NOVEMBER 2022

The air transport sector workforce has recovered and is expected to reach 90% of pre-COVID levels by the end of this year. Aerospace has also turned the corner with production levels in March 2022 exceeding pre-pandemic levels for the first time on a monthly basis. With a significant number in the workforce who are new to the industry, there is a need to emphasise and create greater awareness of aviation safety. Experienced professionals will also benefit from refreshers on safety with the ramp-up of operations.

AAIS, as a signatory of Singapore's charter for aviation safety, is pleased to organise a coordinated safety week for members of the aviation/aerospace community from 14 to 18 November 2022. We invite you to register to participate with a commitment to organise an internal aviation safety awareness campaign (an hour, day or week) during this period, in sync with others in the industry.

To support aviation safety awareness in your organisations and augment your internal efforts, AAIS will be sharing some materials including messages, videos, posters and others. We are also planning two seminars that will touch on the topics of aviation and workplace safety. If you are planning safety campaigns outside of this period, you are also welcome to register to receive the materials.

Recent Activities

Singapore Pavilion@ MRO Asia-Pacific 2022

AAIS was pleased to coordinate the Singapore Pavilion at MRO Asia-Pacific 2022 from 21 to 22 October. The Pavilion, which housed 27 exhibiting companies showcasing a diverse range of capabilities in attracted many visitors, potential partners and customers as fruitful discussions were observed at various booths. AAIS also organised a casual networking session at the Singapore pavilion on 21 September, bringing together exhibitors, AAIS members and partners.

Exhibitors were unanimous in noticing the high number and quality of trade visitors from airlines, MROs and other industry stakeholders. The show ended with the usual remarks that it was simply too short a time for all the opportunities that arose. We thank our exhibitors, members, partners and guests for 3 great days at MRO Asia Pacific, 2 days of exhibition, and 1 clear signal that Aerospace is back in business.

Advanced Manufacturing Learning Journey

An Advanced Manufacturing Learning Journey (AMLJ), held on 23 September 2022, was organised by AAIS to provide members and industry participants an opportunity to experience the transformative possibilities of advanced manufacturing technologies. Located within Singapore Polytechnic, the AMLJ co-developed by SP and TÜV SÜD, brought participants on an interactive tour through 3 distinct zones – namely the Digitalisation, Integrated, and Smart zones.

The learning journey was hosted by ASTech, Smart i4.0 Transformation Alliance (SiTA) and Singapore Polytechnic (SP). Various transformative solutions were shared, including automation, sensors and IOT, and decision-making tools to increase productivity on the shop floor. It also included presentations covering success stories of digital transformation on shopfloors, inspiring participants to kickstart their own transformation processes.

Visit of Incheon Metropolitan City Maritime Affairs and Aviation Bureau

AAIS was pleased to receive a delegation from the Incheon Metropolitan City Maritime Affairs and Aviation Bureau on 26 September 2022. Led by Director General Hyun-Mo Yoon and facilitated by Starburst, the team also included the Incheon Industry-Academy Collaboration Institute.

The meeting saw a useful exchange on the latest industry developments in aerospace and the emerging UAM/AAM sector. As both Incheon and Singapore share similarities as maritime and aviation hubs, the discussion considered various possibilities for benchmarking, information exchange and cooperation.

Upcoming Industry Activities

Industry Preview of Aerospace ITM 2025 by EDB

Oct 10, 2022
(2:00 PM - 4:00 PM)
(GMT+8)

JTC Business Centre
West Camp Road 690
...

The Singapore Aerospace industry is turning a corner. Aerospace production levels in March 2022 exceeded pre-pandemic levels for the first time on a monthly basis. Growth continues to be robust and in August 2022 aerospace output expanded 27.9% on a year-to-date basis.

AAIS members are invited to a preview of the refreshed Aerospace Industry Transformation Map by EDB. The refreshed Aerospace ITM outlines the strategies and initiatives that the Singapore government will pursue to support the recovery of the industry from the pandemic and position it for growth.

To attend, please register ASAP or before Friday, 7 October, 5pm. We seek your understanding that as limited seats are available, registration will be capped to 2 pax per company in the first instance.

AAIS 20th Annual General Meeting

Oct 27, 2022
(2:00 PM - 5:00 PM)
(GMT+8)

InterContinental Si...
Singapore

After 2 years of virtual meetings, we are pleased once again to warmly welcome members to join us in person for the 20th AAIS Annual General Meeting. The AGM will be held on 27 October 2022 from 9.30am to 12.30pm at Intercontinental Singapore.

Join us to hear from AAIS President, Secretary and Treasurer, as they review the past year and share focus areas, plans and strategies for the Association in the coming year. There will also be presentations on initiatives for sustainability, industry and workforce/job transformation.

We will conduct elections to fill one (1) vacant position in the Management Committee. The elected candidate will serve for the balance of the MC 2021/23 term (ie. until the 2023 AGM). Only Main / Alternate representatives of the AAIS membership or their appointed proxies may vote on the resolutions at the AGM.

Business Meetings with Japanese Companies (Online)

Feb 6 - 17, 2023
(GMT+8)

AAIS is pleased to invite you to participate in the "Virtual CEO Business Meeting for Innovative Industry " organised by SME Support Japan (SMRJ). To be held from 6 to 17 February 2023, the programme involves business matching meetings with Japanese SMEs in aviation and aerospace, manufacturing and processing technologies and equipment, AI, IoT, robotics & automation, and other advanced technologies.

All members are welcome to participate. In particular, SMRJ will be prioritising the following for Singapore-based companies:

- Companies seeking distributorship agreements or procuring Japanese parts/products
- Companies with advanced technology and/or those that are interested in joint development and/or technological collaboration with Japanese companies
- Companies keen to seek out Joint Ventures with Japanese companies.

To take part in the programme, please complete the application form and submit it to the AAIS Secretariat via email to liza@aaais.org.sg, by Friday, 14 October 2022 (extended and final deadline).

Partners' Events

Industrial Transformation Asia- Pacific (ITAP) 2022

Oct 18 - 20, 2022
(GMT+8)

Singapore EXPO Conv...
Singapore

With companies understanding the importance of Industry 4.0 (I4.0) in enabling effective and efficient work processes, several key considerations have emerged as the industry eco-system continues to evolve post-COVID, while staying prepared for disruptions in global supply chains brought about by world events.

Themed 'Industry 4.0 for Business Sustainability', the 5th edition of the Industrial Transformation ASIA-PACIFIC - a HANNOVER MESSE event (ITAP) happening on 18-20 October 2022 will deep dive into trends and developments in three key dimensions i.e. Digitalisation, Talent & Workforce Development, and Environmental Sustainability, which influences the magnitude of sustainable business development for advanced manufacturing and its related sectors locally, regionally and globally.

Experience transformative solutions and I4.0 showcases that addresses different needs, levels of understanding and adoption readiness. Partake in discussions on additive manufacturing, standards, industrial transformation and sustainability. Register for a Trade Visitor Pass for entry to the physical exhibition at Singapore EXPO and digital access to ITAP Connected platform.

SPECIAL PROCESSES TRAINING PROGRAMME

A collaboration between AAIS and ASTA Training International
to identify and nurture the next generation of
Technicians/Engineers for Special Processes

We are pleased to announce the next upcoming course under the ambit of the AAIS-ASTA Special Process Training Programme for the aerospace industry: **Flap Peening Applications for Aerospace Qualification from 17 to 19 October 2022.**

This is a comprehensive flap peening theoretical and practical training programme designed especially for the aerospace manufacturing industry. The course covers all fundamental and essential aspects in the understanding and utilisation of the flap peening process in accordance with aerospace industry standards and requirements. It provides guidance and important information on how this special process technique could be properly and effectively carried out. The course will also equip attendees with proficiency and competency in meeting Nadcap Accreditation training requirements.

Aerospace Singapore Feature: Propelling Women in Aviation

The aviation industry is pushing the boundaries of innovation and advancement but where it is still lagging behind many others is in terms of gender diversity. Global statistics on gender equality within aviation remain scarce but it is generally well-observed and acknowledged to be male-dominated. With the exception of airline crews and frontline airport staff, a woman would very likely find herself as a minority in other parts of the industry.

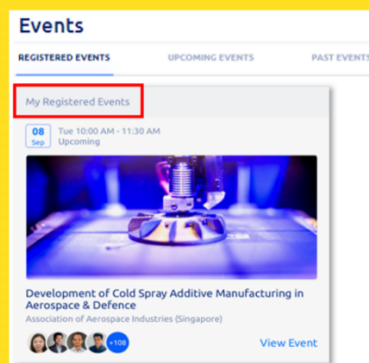

What is the state of women in aviation and what is it like to be a woman in a male-dominated industry? Is there cause to motivate more women to join the industry and what efforts are being made to propel the women in aviation? *Aerospace Singapore* explores.
