- P19 - P20** Exhibitor Listing (By Capabilities)

WELCOME MESSAGE

The aviation industry is expected to make a full recovery in 2024 as air travel demand continues to grow. Therefore, as home to one of the world's best airports and a thriving aerospace ecosystem, Singapore is well-positioned to meet the growing demand.

Aviation and aerospace companies in Singapore have been taking significant steps over the past years towards sustainability, transformation, and innovation developments. This will result in a strong ecosystem in airport management, airline operations, and air traffic management (ATM), solidifying Singapore's position as a global aviation hub in the years to come.

The Singapore Pavilion this year showcases a vibrant collection of local small and medium enterprises, with capabilities ranging from MRO services, airport and ground support equipment, defence, engineering, logistics to parts manufacturing, special processes and much more.

We welcome visitors to explore the diverse capabilities of the Singapore aviation and aerospace industries and look forward to fruitful engagements for our exhibitors, members and entire aerospace community!

Sia Kheng Yok

Chief Executive

Association of Aerospace Industries (Singapore)

Organised by:

Supported by:

SINGAPORE AIRSHOW 2024 SINGAPORE PAVILION

ASSOCIATION OF AEROSPACE INDUSTRIES (SINGAPORE)

The Association of Aerospace Industries (Singapore) or AAIS, is a not-for-profit organisation established in 2003 to promote the development of Singapore as a leading aerospace hub. Its vision is "An Innovative Aerospace Community for a Sustainable Future."

AAIS represents companies involved in aviation, aerospace and unmanned aircraft systems, including maintenance, repair and overhaul(MRO), manufacturing, parts distribution, R&D, training and education, and others. It serves as the voice of industry, facilitates business and engenders the aerospace community.

ACP METAL FINISHING PTE LTD

ACP Metal Finishing Pte Ltd is an established surface finishing company, serving industries for more than 40 years. As a major player for surface finishing in the aerospace industries, ACP supports both aerospace OEM and MRO companies. Accredited by Nadcap for Chemical Processing and Non Destructive Testing, ACP is an approved supplier to esteemed companies such as Boeing, Collins Aerospace, Eaton, GE, Honeywell, Meggitt, Moog, Parker, Pratt & Whitney and Thales. ACP is also a certified repair station by the Civil Aviation Authority of Singapore (CAAS), US Federal Aviation Administration (FAA), European Union Aviation Safety Agency (EASA) and the Civil Aviation Administration of China (CAAC).

Areas of Expertise:

- Electroplating of Metal Components
- Anodising of Metal Components
- HVLP Spray Painting
- Non-Destructive Testing

Certifications:

- ISO 9001:2015, ISO 14001:2015
- AS 9100D
- SAR 145 by CAAS (AWI/204)
- FAR 145 by FAA (OXQY401Y)
- EASA 145D1 by EASA (EASA.145.0906)
- CCAR 145 by CAAC (F06500869)
- Nadcap Certification for Chemical Processing and Non-Destructive Testing

ADVANCED REMANUFACTURING AND TECHNOLOGY CENTRE

Advanced Remanufacturing and Technology Centre (ARTC) is a contemporary platform built upon strong public-private partnerships. In partnership with Nanyang Technological University (NTU), Singapore, ARTC has a membership consortium with over 90 members, ranging from global multinational corporations (MNCs), public agencies, small and medium enterprises (SMEs), to startups. ARTC's expertise in advanced manufacturing and remanufacturing accelerates the transfer of innovation from applied research to industrial applications and solutions, building capabilities through collaboration with industry members in five industry pillars - Aerospace, FMCG and e-commerce, Energy, Land Transport and MedTech.

Areas of Expertise:

- R&D and Innovation
- Co-Develop and Co-Deploy Advanced Manufacturing Solutions & Skills
- Bridge Research and Industry Application Gaps
- Accelerate Translation of Research into Applications

AIRTEC CORPORATION (ASIA) PTE LTD

Airtec Corporation designs, manufactures and distributes digital tyre inflation systems to over 120 countries in the world. As a global leader, we focus on innovation to ensure we continuously deliver new and innovative products. Our inflators are known for its accuracy, durability and ease of use.

Airtec products are manufactured in Singapore, to ISA 9001:2015 quality standards and is accredited by SGS International Certification Services Singapore Pte Ltd. Our digital tyre inflation systems are used in aviation, automotive, military, transport, retail petroleum and motorsports industries.

Areas of Expertise:

- Over 25 years of Experience in the Design, Development and Manufacturing of Digital Tyre Inflation Systems
- Airtec Digital Tyre Inflators are Manufactured in Singapore

Certifications:

AVIATION HUB PTE LTD

Established in 2004, Aviation Hub aims to be Southeast Asia's premier general aviation company, fostering a community and ecosystem for aviation enthusiasts. Located near Singapore's Seletar Airport, they offer a comprehensive range of services, including aircraft sales, management, MRO, ground handling, and a flight academy. Its success is attributed to its dedicated people, emphasizing values of trust, integrity, teamwork, professionalism, and sustainability. Celebrating milestones, they secured distributorships for Bristell and Diamond aircraft, highlighting their commitment to quality service, safety, efficiency, and client value.

Areas of Expertise:

- Exclusive Distributor of Diamond Aircraft (Malaysia, Indonesia & Singapore) and Bristell Aircraft
- Authorize Service Centre for Diamond Aircraft & CAAS/FAA Part 145 MRO
- PPL/CPL Flight Training Centre
- The Seletar Club Membership Program
- Ground Handling Agents at Seletar Airport

Certifications:

- CAAS Part 145
- FAA Part 145
- Authorised Repair Centre for Diamond Aircrafts

AVIATION SAFETY TECHNOLOGY PTE LTD

Aviation Safety Technology (AST) is a dynamic force in the aviation and military industry for over 30 years. Originally recognized as a trusted advisor and key distributor for top-tier military manufacturers, AST has recently launched its line of advanced aerial safety products, and expanded its scope to offer new and used aircraft. AST products include the Day/Night observation electro-optic systems, a cutting-edge tool that significantly boost capabilities in various environmental conditions, as well as high-quality aviation equipment, such as aircraft tugs, ground power units, pylons, tie-downs, general aviation external fuel tank, search and rescue equipment. These products are meticulously designed with attention to detail, ensuring reliability and adherence to international standards. AST's commitment to innovation and quality embodies its dedication to elevating safety, precision, and operational standards within the aviation industry and addressing professionals' evolving needs.

Areas of Expertise:

- Training Aircraft
- Commercial Aircraft
- Electro-optic Devices

AVIMAC PTE LTD

Founded in April 2018, Avimac is a leading Singaporean Small Medium Enterprise, specializing in precision machining for Aerospace and Semiconductors. Committed to excellence and innovation, our global mission is to deliver top-tier machining services. We strive to lead through adaptability, customizing our offerings to meet evolving customer needs in dynamic industries. Avimac maintains a competitive edge by consistently delivering superior quality, ensuring client satisfaction, and embracing a culture of continuous innovation in our products and processes.

Areas of Expertise:

- Precision Machining for Aerospace and Semiconductors (up to 10um tolerance)
- Experience with Diverse Materials: Inconel, Stainless Steel, Titanium, Iron-Nickel
- Varying Material Formats; Shafts & Tubes (up to 1m), Plates (up to 2m) and Castings
- Multi-axis CNC Machines (2 to 5axis) Capable to Produce Complex Geometries Efficiently and Repeatable
- Internal Fixture and Tooling Design using SolidWorks and SolidCam

INTERNATIONAL AAIS NETWORK

The **International AAIS Network (IAN)** is an initiative by the AAIS, in response to a desire by overseas-based aerospace businesses to plug into the Singapore industry network, share their capabilities and explore business opportunities with Singapore-based aerospace companies.

IAN serves as a platform for AAIS to support the growth of Singapore's aerospace sector in the Asia-Pacific region by extending its services overseas. This includes providing market insights, offering business matching services, directory listings and essential training programmes.

BENEFITS AND PRIVILEGES

- ✓ Receive Invitations to Networking Events
- ✓ Receive invitations to Webinars, Seminars, and Conferences
- ✓ Preferential advertising rates in AAIS Publications & Business Directories
- ✓ Complementary Subscription to Aerospace Singapore magazine (PDF)

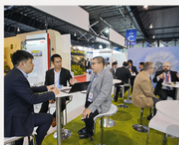

For more information, visit
www.ais.org.sg/international-ais-network
