SINGAPORE AIRSHOW 2026 WELCOME TO THE SG PAVILION

WELCOME MESSAGE

Singapore's aviation and aerospace sector is poised for a strong and dynamic future. Over the span of 10 years, the industry output grew from S\$8.3 billion in 2014 to S\$18 billion in 2024. From January to November 2025, cumulative aerospace output saw an impressive 30.3% year-on-year increase, based on preliminary data from the Singapore Economic Development Board (EDB). As the industry continues to serve both regional and global markets, companies are driving intensive innovation efforts while investing in cutting-edge technologies and expanding their capacities.

Looking ahead, the development of Changi Airport's Terminal 5, slated for completion in the mid-2030s, will mark a significant milestone for the industry. By integrating new technologies and innovative solutions into its development and operations, Terminal 5 will expand Singapore's commercial aviation capacity to accommodate up to 140 million passengers annually, reinforcing Singapore's position as a leading global aviation hub.

We are proud to present the Singapore Pavilion @ Singapore Airshow 2026, showcasing the latest advancements in the sector's diverse and comprehensive capabilities, from aerospace manufacturing and aviation products to ground support equipment and aftermarket products and services.

Have a visit and explore opportunities with the Singapore Pavilion exhibitors! Drop by the AAIS booth to connect with the broader Singapore aerospace community and ecosystem.

Chew Hwee Yong

Chief Executive

Association of Aerospace Industries (Singapore)

SINGAPORE AIRSHOW 2026 THE SINGAPORE PAVILION

**BOOTH NO

ASSOCIATION OF AEROSPACE INDUSTRIES (SINGAPORE)

The Association of Aerospace Industries (Singapore) or AAIS, is a not-for-profit organisation established in 2003 to promote the development of Singapore as a leading aerospace hub. Its vision is "An Innovative Aerospace Community for a Sustainable Future."

AAIS represents companies involved in aviation, aerospace and unmanned aircraft systems, including maintenance, repair and overhaul (MRO), manufacturing, parts distribution, R&D, training and education, and others. It serves as the voice of industry, facilitates business and engenders the aerospace community.

ENTERPRISE SINGAPORE

Enterprise Singapore is the government agency championing enterprise development. It is a statutory board operating under the Ministry of Trade and Industry (MTI) of the Singapore government.

With a global network in over 35 locations around the world, it drives Singapore companies' global expansion while connecting international businesses to trusted partners in Singapore.

Singapore is a powerhouse of growth. As a global hub for trade and innovation, it offers access to a thriving ecosystem of global enterprises, startups, and investors. Known for their commitment to quality and innovation, Singapore companies are also ideal partners for growth.

Enterprise Singapore is here for wherever businesses are growing.

ACP METAL FINISHING PTE LTD

ACP is a major player for surface finishing of aerospace industries. Supporting both the aerospace OEM and MRO companies, ACP is accredited by NADCAP for chemical processing and Non-Destructive Testing (NDT). ACP is an approved supplier to esteemed companies such as Boeing, Collins Aerospace, Eaton, GE, Honeywell, Meggitt, Moog, Parker, Pratt & Whitney and Thales. ACP is also a certified repair station by the Civil Aviation Authority of Singapore (CAAS), US Federal Aviation Administration (FAA) and European Union Aviation Safety Agency (EASA).

Areas of Expertise:

- Electroplating of Chrome, Cadmium, Nickel, Silver, Zinc Nickel and Brush plating of Metal Components
- Various Anodising types and Chemical Conversion Coating of Aluminium Components
- Electroless Processes of Passivation and Electroless Nickel Plating
- Spray Painting and Dry Film Lubricant
- Non-Destructive Testing

Certifications:

- ISO 9001:2015 Quality Management System
- AS 9100D Quality Management System
- ISO 14001:2015 Environmental Management System
- SAR 145 by Civil Aviation Authority of Singapore
- FAR 145 by Federal Aviation Administration
- EASA 145D1 Certification by EASA
- CCAR 145 by Civil Aviation Administration of China
- NADCAP Certification for Chemical Processing
- NADCAP Certification for Non-Destructive Testing

AIRTEC CORPORATION (ASIA) PTE LTD

Airtec Corporation designs, manufactures and distributes digital tyre inflation systems, to over 120 countries in the world. As a global leader, we focus on innovation to ensure we continuously deliver new and innovative products. Our inflators are known for its accuracy, durability and ease of use.

Airtec products are manufactured at our Singapore facility and are subjected to ISO 9001:2015 quality standards and accredited by SGS International Certification Services Singapore Pte Ltd. Our digital tyre inflation systems are used in aviation, automotive, military, transport, retail petroleum and motorsports industries.

Areas of Expertise:

- Manufacturer of Airtec Digital Tyre Inflation System

Certifications:

- ISO 9001:2015

ALPSUN PTE LTD

Alpsun Pte Ltd is established to meet the accelerated demand in the military, homeland security and aviation markets in the Asia Pacific region. We constantly build up our network, offering our consultancy & logistics services and establish relationships with renowned OEMs.

Alpsun also works with OEMs, OEM approved facilities, distributors and stockist partners to offer aircraft spares parts and repair services for the aircraft components.

Areas of Expertise:

- Consultancy
- Project Management
- Logistics Management
- Spares Parts Support
- Repair/Overhaul Support

AVIATION & SAFETY CORPORATION PTE LTD

Aviation & Safety Corporation Pte Ltd, incorporated in Singapore in 2014, is a specialised provider and distributor of aviation and marine equipment and supplies. With a focus on quality, reliability, and operational efficiency, the company supports commercial operators, service providers, and technical partners by ensuring timely access to critical technical equipment.

Areas of Expertise:

- Aviation Equipment & Supplies - Wholesale of aeronautical components, technical equipment, and aircraft supplies to meet operational and safety requirements.
- Marine Equipment & Accessories - Distribution of navigational systems, radar, and marine technical equipment to support marine operations.
- Supply Chain Reliability - Efficient procurement, inventory management, and distribution services to ensure seamless operational continuity.
- Regulatory Compliance Support - Alignment with Singapore's statutory and industry standards, ensuring adherence to safety and quality requirements.
- Capabilities & Facilities - Government and MINDEF-approved contractor; In-house technical servicing and testing capabilities; On-site technical support and field servicing; Specialised workshops for aviation safety and survival equipment.

AVIMAC PTE LTD

Founded in 2018, Avimac Pte Ltd is a Singapore-based precision engineering company and part of the Frencken Group that serves aerospace and semiconductor industries. We specialise in high-accuracy machining for complex parts and focuses on low-to-medium volume, high-mix production with tight tolerances and multi-axis machining requirements. Through advanced machining capabilities and strong quality systems, Avimac delivers components that are precise, consistent, and reliable.

Avimac is driving digitalisation and exploring AI initiatives to improve safety, efficiency, and reliability across machined parts. By combining digital tools with practical operational knowledge, we continue to strengthen our engineering and manufacturing support services and explore new business opportunities beyond machining.

Areas of Expertise:

- Strong engineering on tool, fixture and gauge design
- Application of PPAP, Gauge RRR and Relentless Root Cause Analysis
- Complex CNC machining
- Digitalised workshop
- Visual factory

Certifications:

- AS9100D
- ISO 9001:2015
- BizSafe level 3

BESTLABS SINGAPORE PTE LTD

Founded in 2005 as part of BS Tech, Bestlabs became an independent entity in 2017 under the Best Standards Group of Companies. Today, Bestlabs is a trusted aerospace-focused provider of precision calibration and instrumentation services across Southeast Asia.

- Industry leader in aerospace calibration, supporting MROs, manufacturers, and test facilities across Asia-Pacific
- 18,000 sq ft purpose-built calibration facility designed for high-volume and high-criticality aerospace applications
- SAC-SINGLAS ISO/IEC 17025 accredited and Singapore's first AS9100D-certified laboratory
- Comprehensive aerospace calibration scope, including dimensional, electrical, pressure, temperature, torque, force, flow, and mechanical instruments
- 24/7 operational readiness with double-shift capability to support AOG cases, shutdowns, and tight turnaround requirements
- Onsite calibration & technical support for hangars, test cells, cleanrooms, and controlled aerospace environments
- Full audit readiness supporting CAAS, OEM, and international regulatory requirements
- Technical consultancy & process optimisation, including uncertainty analysis and method validation
- Digital calibration management via CalPortal, offering asset tracking, digital certificates, dashboards, and workflow automation

CF GLOBAL TECHNOLOGIES PTE LTD

Established since 2010, CF Global Technologies has been providing industrial products under our group of companies with a special focus in turbine industries. We specialise in supplying capital equipment like adaptive machining systems, automated/manual precision TIG welding machines, heat treatment solutions, coating solutions APS/HVOF, micro resistance welding machines, drilling technology for cooling holes, and also cleaning, FPI & MPI automated equipment.

Areas of Expertise:

- Adaptive Machining Systems
- Coating Solutions APS/HVOF with Diagnostics Tools
- Micro Resistance Welding Machines
- Drilling Technology for Cooling Holes
- Cleaning, FPI & MPI Automated Equipment

Certifications:

- ISO 9001:2015

CW AERO SERVICES PTE LTD

CW Aero Services Pte Ltd, in partnership with leading OEMs, provides extensive aviation solutions including ground support equipment, tooling, test systems, and digital solutions, supported by a team of OEM-trained specialists.

CW Aero excels in custom testing system design, production, and upkeep. Its new digital solutions division employs artificial intelligence, predictive maintenance, Industry 4.0, and LIDAR technology to enhance offerings, streamline processes, and deliver unparalleled value to clients.

Areas of Expertise:

- Aircraft Ground Support Equipment
- Airport/Terminal Equipment
- Inspection/Testing/Maintenance/Overhaul/GSE and Test Benches
- Creating and Manufacturing specialised GSE and Test Systems
- Digital Solutions including Fleet Management, Predictive Maintenance, Industry IOT, LIDAR and Asset Tracking
- Tooling

Certifications:

ECK PTE LTD

ECK Pte. Ltd. supports the growth of the local and regional cold spray industry by providing top-quality, cost-effective, and comprehensive cold spray coating solutions.

Through strategic partnerships with leading global equipment and consumables manufacturers, ECK serves as a one-stop provider offering repair and maintenance services, equipment and consumables sales, as well as training and consultancy in special processes.

Leveraging strong technical expertise and partnerships, ECK delivers high-quality, reliable solutions to meet evolving industry needs.

Areas of Expertise:

- Additive Manufacturing
- Surface Treatment
- Cold Spray Coating Services
- Thermal Spray Training
- Consultancy Services for Special Processes

Certifications:

- AS9100D
- ISO 9001:2015

FORMOSA INTERNATIONAL PTE LTD

Formosa International Pte Ltd is a Singapore-incorporated company engaged in the wholesale and distribution of aircraft equipment, aeronautical supplies, and a broad range of industrial and commercial goods. Established in 2017, the company operates as an exempt private limited company and serves clients primarily within the aviation and related industries.

With Singapore's strategic position as a global aviation and logistics hub, Formosa International leverages strong regional connectivity to support customers across Asia and beyond. Our business focuses on providing reliable sourcing, trading, and supply solutions, particularly in aviation-related equipment and materials. The company also undertakes diversified wholesale trading to meet the varied needs of its international customer base.

Areas of Expertise:

- Wholesale of Aircraft Equipment and Aeronautical Supplies
- Supply and Trading of Aviation-related Components and Materials
- General Wholesale Trade of Diversified Products
- Cross-border Trading and Sourcing Support

HOPE TECHNIK PTE LTD

HOPE Technik is a Singapore-proud engineering firm that has been shaping the industry landscape with its technological innovations since 2006. As a system integrator for robotics, automation, and special vehicles, HOPE Technik's core business involves developing bespoke solutions to address unique problem statements.

With expertise across the entire engineering spectrum and support from in-house manufacturing, maintenance and industrial design capabilities, HOPE Technik has delivered world-class products to a global clientele.

Areas of Expertise:

- System Integration
- Robotics
- Automation
- Special Vehicles
- Engineering

HYPERCOAT ENTERPRISES PTE LTD

Established in 1985, Hypercoat Enterprises distributes aircraft parts and material for more than 50 leading manufacturers. Products include aircraft coatings, composites, chemical and expandable for airframe systems.

We offer holistic service to our customers from our network of 14 sales offices and warehouses world-wide. We serve various segments of the aviation ecosystem comprising OEMs, MROs, Defence, R&D organisations and tertiary education institutions.

Areas of Expertise:

- Aerospace Coatings
- Specialty Chemicals
- Composite Material and Equipment
- Airframe, Engine and Cabin System Expandable
- Workshop Consumable

ICREDO TECHNOLOGIES PTE LTD

iCREDO is an innovative company focusing on Counter Unmanned Aerial Systems (CUAS).

Using advanced signal processing, iCREDO's low RF power Smart Jammer is able to jam rogue drones kilometers' away 24/7. This reduces collateral damage and does not inhibit civilian way of life. There is no need for any library updates, reducing maintenance cost. Operating cost is also reduced. iCREDO can customise the jammer for higher power and other frequencies. iCREDO also partners with world-renowned companies focusing on drone detection.

Areas of Expertise:

- Counter Unmanned Aerial Systems
- CUAS System Integration
- Drone Jammer
- Drone Detection

KIM ANN ENGINEERING PTE LTD

Kim Ann Engineering is a wholly-owned local SME that has more than 40 years' experience in the supply of ferrous and non-ferrous specialty metals.

Our expertise focuses in four business sectors – Precision Engineering, Energy, Electronics and Aerospace. Coupled with our value-added services such as Heat Treatment, Rough Machining, and Supply Chain Management, we extend our services to both local and regional customers, pivoting mainly in Asia. Headquartered in Singapore, our business outreaches to Malaysia, Thailand, Philippines and India.

Areas of Expertise:

- Heat Treatment Services
- Rough Machining
- Milling and Grinding
- Supply Chain – VMI (Vendor Managed Inventory)

Certifications:

- ISO 9001:2015
- ISO 14001:2015

KOOKREE PTE LTD

Kookree is a Singapore-based deep-tech AI company building next-generation no-code video analytics. We develop proprietary Vision-Language models and pioneer AI continual learning, enabling video intelligence to adapt, improve, and scale across industries. Our technology converts raw video into actionable insights, enhancing operations, safety, and security without complex setup.

Designed for real-world deployment, Kookree supports aerospace and aviation use cases including engine inspection, defect detection, air cargo monitoring, compliance, and land-side and air-side operations, delivering smarter decisions, faster responses, and performance.

Areas of Expertise:

- AI Computer Vision & Video Analytics
- AI Vision-Language Models (VLMs)
- AI Continual & Adaptive Learning
- AI Aerospace & Aviation Video Intelligence
- Edge AI Plug-and-Play Deployment

NICOMATIC PTE LTD

Nicomatic is a global designer and manufacturer of high-performance micro-connectors for aerospace, defense, and industrial applications. We specialise in compact, lightweight, and high-reliability solutions including board-to-board, wire-to-board, and Flex assemblies. With strong expertise in harsh-environment connectivity, we support customers worldwide with customized designs, fast delivery, and a commitment to innovation and quality.

Areas of Expertise:

- High-performance Micro-connectors for Aerospace & Defense
- Rugged Board-to-Board, Wire-to-Board & Modular Interconnect Systems
- Customised Connector & Cable Assembly Solutions
- Lightweight, Vibration-resistant Designs for Harsh Environments
- Rapid Prototyping, Engineering Support & Global Manufacturing Capability

Certifications:

- AS9100:D
- ISO 9001:2015

Product overview

BOARD-LEVEL MICRO-CONNECTORS
Meeting the diverse challenges of modern design, we offer MIL, grade, high-reliability connectors (Data 39 Channel D39) USB 3 solutions that prioritize miniaturization, weight saving, cost effectiveness, and design flexibility.

PANEL, I/O AND BACKPLANE CONNECTORS
Rugged housing 30P EM protection robustness, and defense against water and dust. These connectors champion compactness, adding no significant mechanical stress, and also come in lightweight composite variations.

CABLE ASSEMBLIES AND FLAT FLEXIBLE CABLES
NICOMATIC provides pre-wired connectors and complex harnesses, with standard and other flexible solutions for most connectivity needs.

SOLUTIONS FOR FLEXIBLE ELECTRONICS
Compact and lightweight, ensuring reliable solutions for all your needs in flexible interconnections.

S&E CORPORATION PTE LTD

S&E Corporation Pte Ltd is a Singapore-based engineering and solutions provider specialising in defence, aviation, and safety equipment.

Since its establishment in 2006, the company has built a strong reputation for delivering reliable, high-quality products and services to both commercial and military customers across the Asia-Pacific region.

Areas of Expertise:

- Approved Servicing and Maintenance for Aviation and Safety Systems
- Survival Equipment such as Life Rafts, Life Vests, and Evacuation Slides
- Aircraft Evacuation and Safety Equipment
- Support for Military Life-support Systems, including Ejection Seat and Survival Equipment
- Fire Suppression System Servicing
- Oxygen and Pneumatic System Servicing
- Hydrostatic Testing and Inspection Services

Certifications:

- AS9100D Quality Management System
- ISO 9001:2015
- BizSAFE Level 4
- DOT-Certified Hydrostatic Test Station
- TRACE Certified Company
- CAAS, FAA Part 145 Approval

SANXING PTE LTD

Sanxing Pte Ltd delivers advanced ground support solutions for the aviation industry, specialising in aircraft e-Tugs (up to 90T), frequency converters, rectifiers, cooling units, and wireless crew headsets.

Backed by ISO9001:2015 and AS9120 Rev.B certifications, Sanxing partners with global leaders like TowFLEXx, CDR, and Inbertec to ensure performance, safety, and innovation. Visit us at Booth A-A01 to explore how we are powering next-generation GSE for airports and MROs across Asia.

Areas of Expertise:

- Aircraft e-Tug up to 90T
- GPU (Frequency Converters, Rectifiers, Combined Units)
- Aircraft Cooling Units
- Wireless Headsets for GSE Crew

Certifications:

- ISO 9001:2015

SL METALS PTE LTD

SL Metals Group, a publicly listed leading aluminium distributor in Asia, boasts 40 years of industry expertise. With operations and warehouses in Singapore (HQ), China, Malaysia, and Taiwan, we are a globally trusted supplier.

Being AS 9100 certified, we are dedicated to delivering high-quality products and innovative solutions to industries worldwide, such as aerospace, space, semiconductor, marine, oil and gas, and beyond. Our extensive product range, commitment to quality, and robust global supply chain empower businesses to succeed in a dynamic and evolving marketplace.

Areas of Expertise:

- Unparalleled Stockholding
- Global Reach: Strategic Relationship with Reputable Principal Brands
- State-of-the-Art Facilities: Precision Cutting Capabilities
- Quality
- Prompt Delivery

Certifications:

- AS9100
- ISO 9001:2015
